## CHEERFUL WORDS

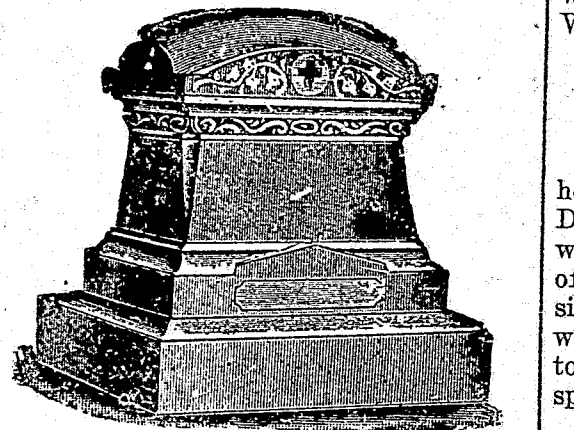

For Many a Norway Household

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove helpful to hundreds of Norway readers.

Mrs. Myrtle Payne, 237 Main St., Norway, says: "I used Doan's Kidney Pills and am thoroughly satisfied they are a dependable remedy. I had more or less pain across my back and kidneys. It annoyed me very much and when stooping and lifting, I felt it more. I found Doan's Kidney Pills good for the trouble and after I used this remedy the pains lessened. I have been practically free from the trouble since and I feel the remedy deserves my recommendation." (Statement given June 7, 1916.)

On September 3, 1920, Mrs. Payne said: "I recommend Doan's Kidney Pills as highly today as I have during several years past. The great good they did me has lasted and my faith in the remedy has remained firm."

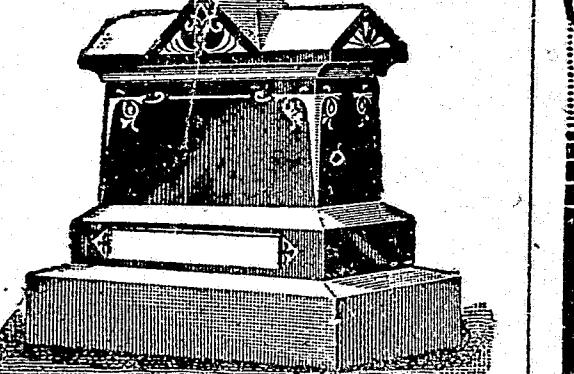

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Payne had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## EAST WATERFORD

Dorothy Howe

Little Dorothy Howe passed away at her home in East Waterford, Friday, Dec. 20, after an illness of two weeks with pneumonia. She was the daughter of Mr. and Mrs. Harold H. Howe, two sisters and one brother are left. She was a darling baby and endeared herself to all our hearts. Rev. Chester Miller spoke beautiful words of comfort.

"Only Asleep"

She fell asleep in the early morn. Like a beautiful flower she lay, She looked like a white-robed angel, That last "December Day".

Softly the snow was falling, As we laid her away to rest, "Safe in the Arms of Jesus," Surely God knows best.

And oh! so softly he said, "Why weepst thou? She's only Asleep, not dead—not dead."

James Marshall is cutting wood for Horace Hussey and Carl Austin is hauling it up for him.

Mr. and Mrs. Arthur Bean of Albany were guests at E. T. Judkins a part of the day Sunday.

A. D. Kilgore is still on the sick list. Guy Ingalls is also sick having had a severe attack of grippe. This disease has been very prevalent in this vicinity for some time.

There was no mail here Thursday Jan. 12th on account of the roads being blocked by the blizzard of the day before.

Swift's Corner boasts of two rather smart young ladies. Blanch and Marilla Hersey who attend school in the village. After riding home in the fierce blizzard of Wednesday night January 11th had courage the next morning to put on their skis and cover the distance of six miles between here and the village over snow blocked roads rather than miss a day of school. Who says they lack sand?

Grant Allison our popular switch tender is the proud possessor of a fine cane which he recently received from a friend in Albany, Roy G. Wardwell. The cane is made of Bird's eye maple nicely polished and has a deer's horn handle. To say that Mr. Allison is much pleased does not half express it. In speaking of it he said "Any one who would not be pleased with a gift like that would be a strange person indeed."

## CHIMNEY BURNED OUT

About five o'clock on the night of Jan. 11th when the blizzard was at its height, E. A. Cox's large old fashioned chimney caught fire. The flames could be seen by the nearest neighbors leaping ten feet or more into the air. It was certainly a fearful sight on such a night, with the wind blowing a heavy gale, but the neighbors quickly responded to a call for help. Mrs. Cox quickly emptied the contents of a fire extinguisher into the furnace which killed the flames down to a great extent, but the chimney still smoldered for hours and grew very hot but no serious damage was done.

What might have been a very serious accident was averted by the quick action of Oliver Merrill who was on the roof with several others. Francis Haskell was at the top of the chimney holding the hose through which they were pumping a stream of water down the chimney when the top of the chimney toppled off taking Francis with it headfirst for the ground. Oliver Merrill, who was astride the roof with remarkable presence of mind and what must have been exceedingly quick action, caught Francis by the clothing and succeeded in holding him until he could regain his foothold. Undoubtedly Francis will always have a warm place in his heart for Oliver.

## BIRTHDAY PARTY

Francis Haskell eldest son of Mr. and Mrs. C. A. Haskell, was given a party at the home of his grandparents, Mr. and Mrs. E. A. Cox on Friday evening, Jan. 13th, it being in honor of his seventeenth birthday. The evening was all that could be desired with a full moon shedding its glorious light over the snow clad hills and valleys. The roads were not in the best of condition but this did not deter the people from gathering to the number of forty or more.

The first part of the evening was taken up with a musical program. Miss Louise French gave two piano solos, Francis Haskell and Virgil Herrick gave selections on the violin and Harry Chick also gave selections on the accordion. After this several joined in singing some of the popular songs of the day.

One room had been especially cleared for a play room and next in order was a game of snowball. A snow man had been constructed of pillows tied into a chair. The party who was to throw the snowball was blindfolded and turned around a certain number of times and then tried to hit the snowman with the ball. Only one person succeeded in hitting the mark. Next was a "Journey to Jerusalem". A mark was drawn on the floor from one corner of the room to the other and the one who wished to make the journey was given a field glass and told that it would be necessary to watch the line he was to travel through this glass turned wrong way to. This caused quantities of merriment as the different ones tried their luck on the "Journey to Jerusalem."

At this time refreshments of two kinds of ice cream and fancy cookies were served and while everyone was busy with these goodies a very noted visitor arrived in the shape of "Dame Fortune" bearing an enormous birthday cake which was cut into forty-eight pieces. The cake contained thirteen different fortunes which were supposed to bring fortune to the finders. After the cake had been eaten a piece of poetry in which the fortune of each who found one of the thirteen articles, was revealed, was read from a big, big book. The remainder of the evening was spent in dancing, music being furnished by James Marshall, violin and Mrs. Minnie Haskell, piano. All then returned to their respective homes, voting it a most enjoyable occasion and wishing Francis many happy returns of the day.

### STUART W. GOODWIN

INSURANCE

146 Main St.,

Norway, Maine.

**BETHEL**  
Fritz Tyler left Wednesday to attend the canners convention at Louisville, Ky. and incidentally look after the box market.

Fire was discovered Wednesday noon in the store of D. Grover Brooks, which did considerable damage as one-half of the store (which has two entrances) was completely wrecked. Fire penetrated the wall to the work room beyond before it was got under control. This store was conducted by Seth Walker for many years later by N. E. Brown, now by D. Grover Brooks. It has always been an up-to-date hardware store.

Marion Wilson has finished her school in Albany for the year and she with her cousin, Ralph Rice of North Waterford were guests Sunday of D. R. Smith and Mrs. A. E. K. Grover. Miss Wilson will spend some time with her parents at their camp in Hanover.

D. R. Smith was at Gilead, Monday. Mrs. Walter Bartlett is at the M. G. Hospital, Portland for treatment. Mrs. H. C. Brown is spending the winter with her son, Percy Brinck and family, Mechanic Street.

Mrs. Irving Stearns (Minnie Littlehale) of Framingham, Mass. passed away Saturday, in Portland where she had come for treatment. Her sister, Mrs. Howard Thurston of Bethel, was with her for several days before she passed away. Funeral services were held at Bethel and burial was in the family lot in the Bear River Cemetery, Newry. She leaves a husband and many relatives and friends who will sadly miss her kindly presence.

The little daughter of Mr. and Mrs. Albert Gibbs who live on Mill Street, passed away Monday afternoon. The child, not a year old, was frail and whooping cough and a weak heart caused an ending of the little life.

**Town Farm.**  
The State Board of Charities and Corrections in its report of its inspection has the following to say about the Bethel Town Farm:

Superintendent, Herbert J. Burgess. This farm is rented for \$50 a year, with agreement that superintendent keep snow on the two nearby covered bridges. No employees. Last inspection by overseers, July. Some member usually calls every three or four months. Only one inmate, a man over 60. Capacity, nine.

Atmosphere of house is homelike. Inmate has visitors and books and one inmate sells occasionally. Inmate splits enough wood for his own use. Tramps fed but not lodged. House clean and orderly; good furniture and plenty of food; beds clean and enough clothing. Good drinking water piped from spring. House heated by furnace, and stoves; lighted by oil lamps.

The matron said that no record of profit or loss in running the place is kept but that expenses were met. House needs painting and paper and minor repairs needed in barn; superintendent planning the latter soon. Matron said she and the superintendent were most interested in paint and paper for house.

**Skillington**  
W. Foley suffers badly yet with the carbuncle on his neck.

Mrs. Young is gaining fast now. Mr. and Mrs. Asa Howard and friend were callers at Seth Mason's, Sunday.

Mrs. Parlin is going to help Mrs. J. P. Skillington for a while.

Mrs. James Spinyne has finished working for Mrs. Skillington and will take care of her mother.

The little girls of Mrs. Judkins are better of their colds.

**EAST OXFORD**  
Alsid Arsenault is much better and able to be at work again.

J. F. Fuller with a crew consisting of D. L. Benson, Harry Fuller, Francis Sockalexis, and Milton Martin has finished cutting ice for John Hall, William Caldwell, Thomas Tague, Win Gammon and Fred Hall.

Mr. Sturgis with wife and family from Steep Falls is boarding at D. L. Dorey's and saving for Harold Pratt.

C. H. Muckler has been driving for Thomas Tague during the sickness of Alsid Arsenault.

W. E. Gammon recently purchased a pair of iron grey colts, which promise to make a valuable team.

School commenced at the Caldwell School January 9th with the same teacher as in the fall.

Mrs. C. H. Muckler is visiting her parents in Belfast for a few days.

George Brown recently butchered two very nice hogs.

January 11th brought the first real storm of the season and necessitated a little road breaking especially in the Witham Neighborhood. The rural carrier did not miss a trip, however, though he was obliged to cut his route short on one day.

It looks like a busy winter for this section with D. L. Dorey and crew cutting pine for A. K. Thomas, William and Forrest Thomas cutting pine for William Caldwell, and Thomas Tague cutting oak on his own, all for the Pratt Mill, while Edgar Stearns is cutting birch bolts for William Caldwell which go to South Paris.

Dan Paine is suffering with rheumatism.

**HARBOR**  
Mrs. Nellie Paine of Lewiston has recently visited her father, M. M. Smart, who celebrated his eighty-first birthday, Jan. 10th.

Mrs. Sarah Pray, who went to North Conway Saturday to visit her daughter, Mrs. Chester Sawyer who is sick.

Mr. and Mrs. Leon Charles, John Hall and Everett Seavey attended Grange meeting at East Conway, Wednesday, got snowed out of night.

S. C. Gupit is out, after being confined to the house by sickness several weeks.

Rev. Mr. Stacy is giving some excellent sermons, Sunday mornings. The new furnace gives good satisfaction, the janitor W. E. Bemis is on his job.

Everett Shaw has sold his farm to Oris LeBaron of West Lovell.

Mr. and Mrs. Leslie McKean and son attended pictures at North Fryeburg, Saturday night.

The Ladies Aid will have supper and entertainment Friday night, Jan. 20.

## WHAT TO DO IF YOU LAY UP YOUR CAR THIS WINTER

Take or send your battery to the Willard Service Station to be stored until you need it. The additional security and convenience of leaving this to us far outweighs the moderate expense.

Dry storage is recommended for all batteries with wood separators, which have given a summer's service.

The plates will be disassembled and carefully stored in a dry place. In the spring, new separators are put in and the battery charged and put in condition for service.

Wet storage is recommended only for the Still Better Willard Battery with Threaded Rubber Insulation, or for a wood insulated battery that has been in service only three or four months.

If you do not intend to run your car this winter, write, telephone or call upon the Willard Service Station immediately for full particulars about the storage of your battery.

## GOOD PLACE TO GROW RASPBERRIES

"The raspberry may be grown with profit in Maine if the proper care is taken," says Howard F. Maxim of Lockes Mills, an expert on the question. There are three different types of raspberries grown in the United States, red, black and purple, he states. The red are propagated by the suckers that come up from the roots of the parent plant and from root cuttings. The black and purple varieties are propagated by layering the tips late in the season. Some of the red varieties under cultivation here came from Europe and others have been developed from the American wild raspberries.

"Among the leading varieties are the Outburst, St. Regis, and King. The Outburst, introduced a few years ago, has proven more hardy with more than any other variety I have tried in my 28 years' experience raising raspberries in Oxford county."

"The purple varieties are hybrids between the reds and the blacks, and have long, slender canes that bend over to the ground and take root at the tips the same as the black-cap varieties. All the black raspberries have been developed from the American black raspberry which grows wild in Michigan, western New York and some Eastern state. In my garden canes of this variety have grown 16 feet in one season."

"Very few raspberries are grown south of Virginia, Tennessee and Missouri and only in the higher elevations in these states."

"Among the many things to be considered in planting raspberries for market are location, soil conditions and sufficient help for picking. I plant my raspberries in rows seven feet apart and about three feet apart in the row, using stakes made of the cane. Veggies can be grown between the rows the first season. A thoroughly drained soil is necessary for good results, but there should be plenty of moisture available at all times."

"For the home garden the poultry yard is a good place to raise raspberries and blackberries. The chickens keep the weeds down and enrich the soil and the bushes give shade for the chickens. In field culture I would give clean cultivation until after the berry picking season is past and then sow some cover crop such as clover, rye or vetch, to prevent washing of the soil."

"All the old canes should be cut and removed as soon as possible after the fruit is gathered. Most varieties need winter protection here in Maine. All pruning of the canes is done in the early spring and new fields should be planted as early as possible."

"An eastern or southern slope is desirable. The soil should be made rich enough to produce a good crop of corn. Barn manure, ashes and chemicals are all good. Too much barn manure has a tendency to make the berries soft. A liberal supply of potash in the soil is necessary to produce firm berries that will stand up for shipping to market."

"SANDINESS" IN ICE CREAM  
PREVENTED BY PASTEURIZING

The condition in ice cream known as  
"sandiness" is being studied by the  
dairy division of the United States Depart-  
ment of Agriculture, and it is now pos-  
sible to make some suggestions to manu-  
facturers and retailers that will assist  
them in freeing their product from this  
fault. This imperfection in ice cream  
has retarded the development of the in-  
dustry to a considerable extent.

Sandiness is caused by the formation  
of crystals of lactose, or milk sugar.  
These crystals, being only one-thirtieth  
of an inch in size, are not dissolvable  
in the mouth. Some manufac-  
turers claim to have had hundreds of gal-  
lons of ice cream turn sandy before it  
reaching the factory, but sandiness is  
usually found to occur in much smaller  
quantities of ice cream, after it has been  
delivered to the dealer.

Although there are a number of factors  
which have not yet been thoroughly stud-  
ied, these conditions are known to have  
an important influence on the number and  
size of these sand-like crystals. These  
known causes are the use of sandy con-  
densed or evaporated milk, excessive ice  
in the mix, and fluctuations of tempera-  
ture in storage. It has been  
found that ice cream subject to exposure,  
as most of it is in process of marketing,  
should not be made up with more than  
the 5.55 per cent of lactose, which is equiv-  
alent to about 11 per cent milk solids.  
Any larger amount than this increases  
the tendency to sandiness.

Pasteurization is important in over-  
coming sandiness that may be present in  
the mix before freezing. If the mix is  
heated to 145 and slowly agitated for  
25 minutes the crystals will be dissolved.  
Rapid freezing when there is a high lactose  
content seems to hasten the formation  
of the sandy crystals. Raising and low-  
ering the temperature, a frequent occur-  
rence in ice cream cabinets is often a cause  
for sandiness. In connection with these  
temperatures, time of holding has much  
to do with increasing the undesirable con-  
dition.

## CONCRETE ROAD REINFORCEMENT

How a reinforced concrete road holds  
up under heavy traffic is to be determined  
by the Bureau of Public Roads, United  
States Department of Agriculture, through  
experiments to be conducted in the  
suburbs of Washington in cooperation  
with Arlington County, Va.

The road is being reinforced with many  
different arrangements of wire mesh and  
round steel rods embedded in the con-  
crete. The joints will be either a crack  
left in the road, to be filled with tar, or  
simply a sheet of corrugated metal set  
on edge with the concrete poured around  
it. Some sections are to have joints run-  
ning along the middle of the road, some  
across it, and some will be built without  
joints.

Of especial interest is the construction  
of ribbed sections. Instead of placing  
the concrete on a nearly flat subgrade,  
trenches will be dug in the subgrade run-  
ning parallel to the edges of the road  
and also across the road. These trenches  
will be filled with concrete, giving the  
slab downward projections of concrete,  
and presumably strengthening it. Ex-  
periments also will be conducted to deter-  
mine the strengthening effect of treating  
the earth under the concrete. On one  
section the earth for a depth of 6 inches  
will be mixed with cement, using 1 part  
of cement to 20 parts of earth. In some  
places where there is a grade a trench  
under the concrete will be filled with  
gravel. These trenches will slope toward  
the edges of the road and drain away  
any water that might otherwise accumu-  
late under the surface.

Eczema Makes You Wish You Could  
Your disease, which is some-  
times called salt rheum, not only  
itches, but also burns, oozes, dries  
and scales over and over again.  
Sometimes it covers the whole  
body and causes intense suffering.

You have found that local ap-  
plications have no lasting effect,  
and you want permanent relief.

You must thoroughly purify  
your blood or the eruption will

### BASKETBALL

Norway High 72; West Paris H. S. 15

Completely outclassed in every department, West Paris was merely able to raise a ripple during the one way game at Norway Opera House, Saturday evening. Rapid and faultless passing, together with clever blocking on the part of Norway High School kept the ball in West Paris territory and away from the visitors. West Paris worked successfully the long passes to corners and gathered most of their slender crop of baskets by that method. Norway had the knack of punctuating these delays until a wide margin on the score board put the team into an easy going contingent.

Despite the handicap of some thirty-two points, West Paris returned for the second period, cheerful and ready to tackle wild cats if need be. Although Norway caged sixteen baskets in this period, the chances offered for easy ones were not accepted very often. They resorted to passing and floor work, and at times completely ignored the netted ring. While the action was fast, the game lacked the usual scare moments given the spectators in recent contests.

Both teams had spells of near sightedness under the baskets, and missed the ring altogether too frequently. H. Briggs proved the most accurate shooter for the visitor and caged several pretty long shots which drove nearly all praise from the spectators. Ledger and Nevins shook down a bumper crop from the basket tree and Brown, who has struggled hard in two seasons for even one plum, secured his first prize on this occasion in the second period.

Norway High Second 23; McFalls 8  
Mechanic Falls High school was easily defeated in the preliminary at Norway Opera House Saturday evening. The Norway Seconds played fast with the passing and floor work and excelled the visitors in these departments. The Mechanics put the greater weight in the line-up, but lacked snap to outplay their antagonists. Their shooting went high, wide and erratic, therefore floor baskets were practically an unknown quantity. Allen on the floor line was the redeeming feature and dropped 4 neat ones into the ring from 8 free tries. Hartford made one try and failed. Allen and Harris secured a floor basket apiece in the early minutes of the first period, beyond this nothing happened.

Manford Palmer was the high striker for Norway and pretty accurate on long shots. "Stubby" McKay covered the floor at all times and was also successful at the ring, especially in the last period. Each member in this outfit of "reserves" put up a good game which was considered by many the best contest for the evening. The score:

The attendance was unusually large for a Saturday evening affair and many remained for dancing until midnight. Anderson's orchestra furnished music. The new songs with piano accompaniment and cheers were introduced by the school delegation occupying seats on the stage. Prof. Edward H. Brown and "Stubby" McKay directed this noisy organization with telling effect. Each team was received with cheers and all good plays were acknowledged in a good sportsmanlike manner.

Sues for Twenty Thousand  
Mrs. Lou M. Daugherty of South Paris has bought suit against Florence Hastings and Lilla Tibbets, both of Auburn, because of the death of her husband, Lyman M. Daugherty, who died as the result of an auto accident.

Separate suits are brought against the women for equal amounts, \$10,000. Papers filed at the county buildings state that the suits will be heard at the February term of Supreme Court. Miss Tibbets retained Attorney Walter L. Gray of South Paris as her counsel. Frank A. Morey, of Auburn, who represented Miss Hastings at the Norway court, will again act as her counsel.

Miss Hastings was driving an automobile owned by Miss Tibbets when she struck down Mr. Daugherty, Oct. 20. He died several days later from injuries sustained.

At the time of Miss Hastings' trial at the Norway Municipal court, Nov. 22, it was shown she had tried to avoid striking Mr. Daugherty, but had failed. The man was walking across the road at the time of the accident. Witnesses claimed that Miss Hastings was driving at an excess of 30 miles per hour.

After being found guilty of manslaughter, Miss Hastings was released without bail. Miss Hastings is a daughter of the late ex-Sheriff David R. Hastings.

Earl Felt who is making shoes in Auburn has home from Saturday forenoon until Sunday afternoon.

Mrs. M. M. Steele of Pincher Creek, Alberta, Canada, is visiting Mr. and Mrs. Charles Libby. Mrs. Steele was formerly Bessie C. Wilson, a graduate nurse of the Central Maine General Hospital, Lewiston.

While there she cared for many Norway people. After graduation she took a postgraduate course at Dr. Walter's college of Physio-Therapy, Philadelphia. This was Mrs. Steele's first visit in Norway after an absence of 11 years.

### SOUTH PARIS

On the center of the dining table around which all sat, a birthday cake, made by Mrs. Parlin decorated with thirteen candles, was the pleasing, pretty feature. After supper fortune telling was told by shooting birds which were suspended from a string. Other games were enjoyed.

Ernest P. Crockett was presented a silver cup by the Western Maine Poultry Association at its meeting recently held at South Paris, to show appreciation for his faithful services as President for 12 years.

## WOMAN TOO WEAK TO WALK

Now Works Nine Hours a Day—  
Lydia E. Pinkham's Vegetable Compound Restored Her Strength

Union Village, Vt.—"I was weak and nervous and all run-down. I could not walk across the floor without resting and I had been that way for weeks. I saw your advertisement in the paper and after taking one bottle of Lydia E. Pinkham's Vegetable Compound I felt the good it was doing me and I took seven more in all. Before I finished the last bottle I was able to work without rest and I cannot say too much in favor of your medicine. I trust all sick and suffering women will take it. It has been two years since I took it and I am strong and well."

Mrs. L. A. GUIMANN, Union Village, Vermont.

This is only one of such letters we are continually publishing showing what Lydia E. Pinkham has done for women, and whether you work or not Mrs. Guimann's letter should interest you.

Many women get into a weak, nervous run down condition because of ailments they often have. Such women should take Lydia E. Pinkham's Vegetable Compound which will take it. It has been two years since I took it and I am strong and well. Good health is necessary and this splendid medicine will help you to keep it.

### HARSH CATHARTICS ARE HARMFUL

SECURE RELIEF PLEASANTLY

Constipation results from the inability of the intestines to eliminate waste matter. Harsh cathartics and drugs of metallic origin force action; but they do not correct the cause of constipation. Early settlers treated constipation with natural laxatives. An extract was made from herbs, roots, barks and leaves with laxative qualities. Dr. True's Elixir, the True Family Laxative, is a compound of extracts from natural plants—a pure, mild, pleasant and effective old-fashioned, homemade laxative that for 71 years has been a favorite. Its regular use relieves constipation and fortifies the body against more serious illnesses. You are safe with Dr. True's Elixir. 40c, 60c, \$1.20.

### Loss of Time when Sick

means loss of money, as well as physical suffering. Many forms of illness are avoidable by the use of a few common sense precautions. Don't hurry your meals. Take time to chew your food properly; mastication is the first and an important part of the digestive process. Don't eat when overtired; rest a few minutes, it will pay you. Don't borrow time for work when you should rest. Sleep. Drink lots of water, and get your full share of exercise. Don't allow your bowels to become constipated, but if this should happen, delay taking a dose of "L.F." Atwood's Medicine when you go to bed. It has been a safe, reliable remedy in hundreds of homes for more than sixty years. Large bottle 50 cents—one cent a dose. All dealers supply it.

## EVERYONE SEES A CHANGE IN HER

Mrs. Boucher's Friends are Congratulating Her on Wonderful Improvement.

"Tanlac has done me more good than I ever dared to expect two months ago," said Mrs. Emma Boucher, 69 Grove St., Keene, N. H.

"Four bottles of Tanlac have made such a grand improvement in my condition that my friends often speak of how much better I am looking. For the past eight or ten years I have felt myself weakening and at the time I got Tanlac I was run down to a very low state of health. And I kept getting worse all the time until I had almost lost hope. My blood was thin, my color bad, and my back ached constantly. I always felt so tired I could hardly drag one foot after the other. My work got behind and when night came I would drop into bed from exhaustion. Five or six years ago my stomach went wrong, my appetite left me and I just suffered agony from this cause.

"The sight or smell of food nauseated me and I suffered terribly from gas pains around my heart. I would stumble around from dizziness, had fearful headaches and could scarcely get my breath at times. I was very nervous and became fearful that the end was near. I have gained strength every day since I began taking Tanlac. I often eat enough for two people and it does not hurt me. Tanlac has done me more good up to this time than everything else I have tried put together. I wouldn't think of being without it."

Tanlac is sold by A. L. Clark Drug Co., Norway; Stowell Bros., Locke's Mills; R. E. Pinkham, East Waterford; W. H. Brown, East Stoneham; Heald, Stearns & Kimball, Lovell; H. L. Hutchins & Co., North Eggborough; L. B. Rounds & Co., Waterford, and P. G. Barrett, Welchville, Me.

## BATES—WEST PARIS

Perley A. Wyman

Perley A. Wyman died at his home on Curtis Hill in Woodstock, Saturday morning, January 14, after a sickness of several months with tumor on the brain. He was the only son of Freeman L. and Augusta Perkins Wyman and was born Nov. 24, 1874. He has always lived in this vicinity with the exception of a few years spent in Rumford. He has been a successful gardener and in the poultry business; also in fruit orcharding in company with his father. He was a member of the Rumford I. O. O. F., the West Sumner W. R. Mrs. Leslie Estes and her brother, Roland Porter, received a dispatch early Saturday morning of the sudden death of their brother, Harold Porter in East Thetford, Vt. They took the forenoon train for that place where their father, Ezekiel L. Porter and family moved from here a few years ago. Word has been received here that Mrs. Porter went to her father's home that Harold was working in the woods alone cutting up a fallen tree. As he did not return home at the usual time at night, his father and a neighbor went to hunt him up and found him dead where it was thought a part of the tree had fallen in the cutting and knocked him down, killing him instantly, as there was no sign of struggling. Harold was born in the Porter Neighborhood on High street, Dec. 31, 1896. He was a member of the Baptist Church and West Paris Grange until they transferred their membership to the local Grange near their new home.

## SOUTH RUMFORD

One of the many surprise parties for which this neighborhood is noted, was held at Lee Elliott's Saturday evening, Jan. 14 in honor of Mr. and Mrs. Albert Silver, who were recently married. About forty were present and enjoyed the victrola music and cards and refreshments of coffee, cake and sandwiches. A handsome electric lamp was presented the new-wards by the employees in Rumford Garage where Mr. Silver works, and a sectional book-case by the neighbors, also a nice oak rocker by Mr. and Mrs. George Pyle.

About thirty young people from Rumford enjoyed the day Sunday at Arthur Putnam's camp on Zircon.

Barbara Stone from New Sharon is teaching this winter and boards with Mrs. Ross Putnam.

## FRYEBURG

## ADVERTISER, Norway, Maine

Boston Herald's New Year's wish: "Save us from a bureaucratic state! Save us from a concentration in Washington of numberless bureaus for regulation of human affairs, from maternity to St. Lawrence navigation, from cold storage to patriotic poems. Let us, as a people, do something for ourselves, and remain masters in our own houses." Amen.

"I have a fine opening for a good man," said a grave-digger.
